

HAWAII
DRUG CONTROL STRATEGY SUMMIT

PRE-SUMMIT REPORT

APPENDIX A

HAWAII DRUG CONTROL STRATEGY SUMMIT

PRE-SUMMIT SURVEY

Building upon the work of previous meetings, events and their findings, the Hawaii Drug Control Strategy Summit aims to establish an integrated statewide approach to the complex problems caused by the use and abuse of illicit drugs and underage drinking in our communities. Your involvement as an individual or representative from an agency/organization will allow us to reach real and effective solutions by examining not only what we should do, but more importantly, what we can do and the appropriate paths towards achieving our goal.

This survey intends to gather participant opinions and recommendations concerning the conceptual framework of the working document “Hawaii Drug Control Strategy: A New Beginning” and its approaches towards cultivating community capacity and improving the quality of life in the State of Hawaii.

Your answers will be used to prioritize issues and act as a guide for work groups at scheduled breakout sessions. We will try to accommodate everyone’s work group selection; however, some groups may be cross-sectoral depending upon slots available and requests received.

Please read and review “Hawaii Drug Control Strategy: A New Beginning” prior to completing this survey.

Please note that your participation is voluntary, and any information that you give us is confidential. Responses will remain anonymous, and results will be reported in aggregate form.

General Information

1. Please provide the following information.

Name

Name of Agency/Department/Program

Street Address and/or Mailing Address

Telephone and Fax Numbers

Email Address

Contact Name, Title and Department if available

Direct Telephone for Contact if available
